Making Awesomeness, living our passion.

We are using incredible tools and producing high quality code. We believe that nothing is more effective than working on an engrossing project. That's what we always do.

{ ... }

- 1 Well, what else to tell you?
- 2 Here is what we love : web dev, Ruby on Rails, all new exciting technologies which help producing code, agile developpment, design that effectively fits users needs (UCD), pasta, hard moments of a rushed late new deployment.
- 3 Feel free to contact us (English or French) if you have a project, an idea or need advice.

{ ... }

- 4 Our projects
- 5 reseau jeunesse, interactive and social plate-forme. Managing full stack : from design to backend server using capistrano, including an elasticsearch service.
- 6 neurones, interactive plate-forme. Including a full home-made personal micro website editor tool for users.
- 7 google cloud backup, automated script to upload any bash command directly to google cloud. Used in production for database backup.
- 8 And a lot more, check our repositories !

{ ... }

- 9 But who are we?
- 10 Not much to say, what we do defines us. At least, here are our names : Keran Kocher, Noémien Kocher.

Keran Kocher
Noémien Kocher

[← Keran Kocher](#)

My favourite tools are Ruby on Rails in hand with JavaScript and its awesome framework AngularJS. I'm able to manage the deployment of a rails app from coding to server configuration. I also know tools from other backgrounds like Python and Django.
And don't look at my picture, I'm not that serious.

[← Noémien Kocher](#)[PDF](#)

Happy Rails dev involved with many cool stuff like Java, Postgres, Nginx, C & Bash.

**📘 My path**

- 2009-2012 Federal Certificate of Capacity in E.T
- 2009-2012 Professional Technical Maturity
- 2012-2013 Special math courses at swiss federal institute of technology Lausanne (EPFL)
- 2013-2016 Bachelor of science in computer science, College of Engineering and Architecture Fribourg

🎯 Skills (relative to my knowledge)

| | |
|---|--|
| Java | |
| Ruby (on rails) | |
| Javascript | |
| python | |
| JR (Java concurrent programming language) | |
| C | |
